

The background is a bright, modern office with large windows and people working at desks. An orange semi-transparent overlay covers the left side of the image.

JVZoo & Zift

Partner Together

JVZoo The First Affiliate Platform to Integrate with a Payment Processor BUILT for OUR MARKET

The Team at Zift were just as excited to partner with JVZoo as we were about being the first Affiliate Network to introduce a processor that has been built with Sellers & Affiliates in mind.

Zift & JVZoo have similar missions, to let their users and customers be fully in control of their businesses at all times. You will have control of your own cash flow, but with all the features that JVZoo has to track payments and refunds.

Connect your Zift account inside of JVZoo and instantly start taking sales.

Zift offers the ability to recover split amounts on refunds and chargebacks from your partners.

Zift offers a range of ways to pay your partners.

Zift Account to Zift Account

(Securely pay your affiliates and partners directly into their Zift account in one simple transaction.)

Manual Payments

(Download payment report and send the correct amount via wire, check or other means.)

Here's why vendors and affiliates will love Zift:

Frictionless Signup

Apply for your account in 10 minutes or less, connect your JVZoo account, and start taking payments instantly.

Split Payments

Set up Jv/partnership contracts to go alongside your affiliate payouts.

Fully Integrated

Seamlessly keep track of all partner & affiliate payouts right inside your JVZoo dashboard.

Low Fees

2.9% + 30c

Automated Payouts

Scheduled payouts for on set dates.
Controlled CASHFLOW.

Recurring Billing

Easily manage recurring payments for your subscription business, services and softwares.

Split Payments

JVZoo and Zift partnership split payment functionality allows sellers, marketplaces, or platforms to split a fixed amount, or percentage, of payments processed to a third party.

Split Payments

Split payments between a maximum of 9 different affiliates.

Split Options

Split a fixed amount or a percentage of the transaction; which can be specified on a per transaction basis.

Itemized Transaction Splits

Apply the split to the overall transaction or apply a unique split scenario to each of the items within a transaction.

Primary Merchant

Transactions originate with a primary merchant and are split to the affiliate on a fixed cycle.

Scheduled Payouts

Seamless payouts remitted to affiliates on scheduled dates.

Manage refunds

Recover split amounts on refunds and chargebacks from your affiliates.
