GetResponse Set Up

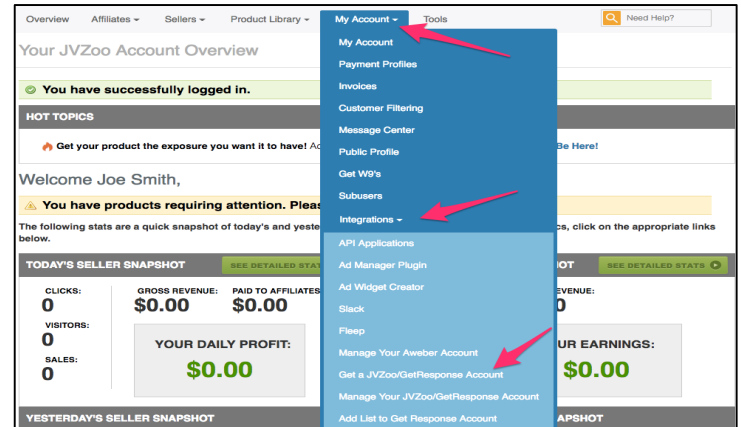

GetResponse Set Up

Step 1: Getting Started

Hover over *My Account* and scroll down to *Integrations* then click on *Get a JVZoo/GetResponse Account*.

If you already have an account at GetResponse, skip down to **JVZoo/GetResponse Account**.

Step 2: GetResponse Registration

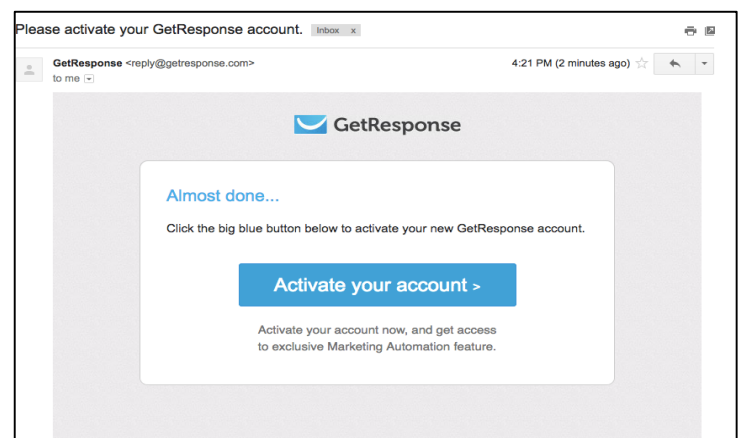

On the bottom of the page, you can register for your **30-Day Trial**. Fill out your email, name, and create a password and you are finished!

Step 3: GetResponse Activation

Verify your email address by logging into the email you provided at registration. The email header will read **Please activate your GetResponse Account**.

Open the email and click on the link *Activate Your Account*. The link will allow you to sign into your new GetResponse account. Verify your phone number and complete any requirements that GetResponse may request.

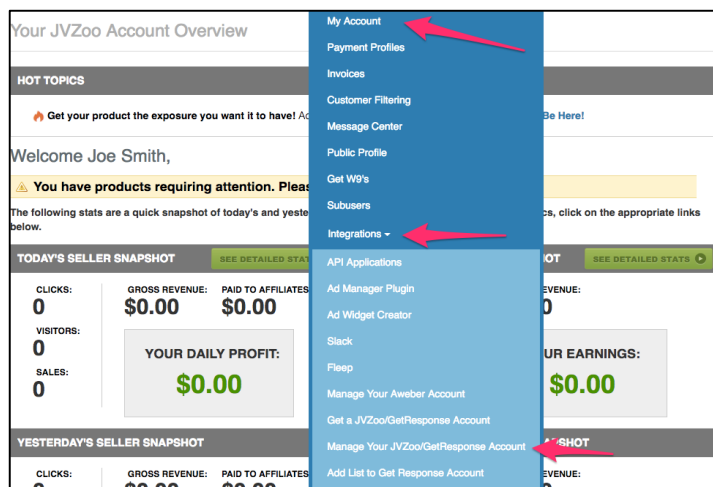

Step 4: JVZoo/GetResponse Account

Once your GetResponse account is set up, you will need to link your JVZoo and GetResponse accounts together.

Hover over *My Account* and scroll down to *Integrations* then click on *Manage Your JVZoo/GetResponse Account*.

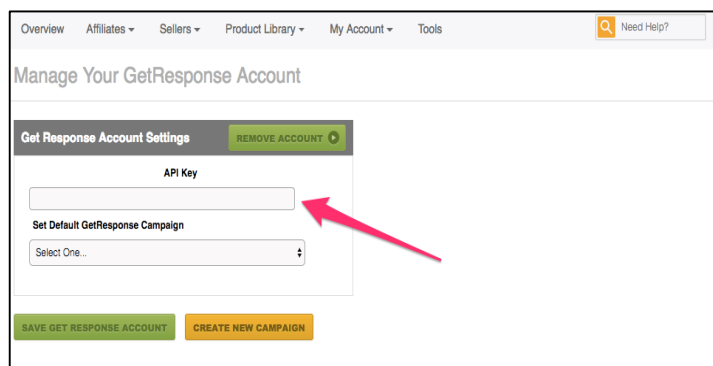

Step 5: GetResponse Account Setting

To be able to link your JVZoo and GetResponse accounts, you need an API Key. Your API Key was emailed to you.

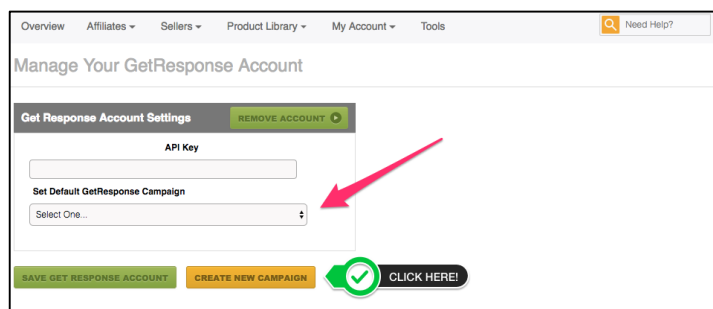

If you can't find the email, you can find it by logging into your GetResponse Account. Once you are logged in, go to My Account then click Use GetResponse API Key and copy your API Key.

****Note**** This API Key will only work if you are still under trial or have paid for a GetResponse Account.

Step 6: Create New Campaign

Each campaign allows you to store all your customers' information onto one mailing list. To create one, click *Create New Campaign*.

Step 7: Create Your List

Type the name of your campaign then click *Create New List* In JVZoo/GetResponse Account.

Use the form below to create add-on lists (campaigns) in your JVZoo/GetResponse account. The lists created with this form will automatically get all of the benefits (and settings) as your original list on this account.
